

ISSI LIBRARY

INSTITUTE FOR SMALL-SCALE INDUSTRIES
UNIVERSITY OF THE PHILIPPINES DILIMAN

INDEX TO

PHILIPPINE MSME ONLINE NEWS SOURCES

Volume III: 2023

Preface

The essence of the UP Institute for Small-Scale Industries (ISSI) Library is to provide access to all sources of information relating to Philippine micro, small, and medium enterprises (MSMEs). To realize this, effective and efficient research tools and guides are devised to facilitate information retrieval. One of the services that is geared towards a high level of client satisfaction is indexing. With the rapid increase in the amount of published information on MSMEs, library clients need quality information from reliable sources more than quantity from a list of search results found on the internet.

Hence, the Index to Philippine MSME Online News Sources (IPMONS) is devised annually by the ISSI Library to enhance its provision of access to information from different sources and organizations. This tool, which serves as a guide to researchers, provides an extensive collection of online news articles concerning micro, small, and medium enterprises (MSMEs) in the country.

This guide focuses on reliable local online news sources for entrepreneurial research. The third volume of the IPMONS covers 29 online news sources, which are carefully selected and determined to be authoritative. It comprises 1,038 published articles from online news sites in 2023. The news articles are classified into 62 subject headings using authoritative controlled vocabularies and the Philippine Standard Industrial Classification (PSIC) of the Philippine Statistics Authority (PSA). In this volume, the MSME online news trends include: 1) financial service activities (7.61%), 2) banks and banking (7.51%), 3) information technology and computer service activities (6.84%), 4) mentoring in business (5.30%), and 5) labor (5.11%).

It is intended for policy researchers, entrepreneurs, students, and the general public interested in the intricacies of MSMEs' growth in the country.

List of Online News Sources

BACK END NEWS

ENTERPRISE & CONSUMER TECHNOLOGY

backendnews.net

This technology news and features website established in June 2018, delivers articles on industrial developments aimed to help both solutions providers and end-users find their right fit to ensure seamless business operations.

baguio.midlandcourier.com.ph

This is the official news website of Baguio Midland Courier. It covers news articles within the Cordillera Region.

businessmirror.com.ph

This is the news website of BusinessMirror, a daily business newspaper in the Philippines founded in 2005. It covers not just economies or industries or companies or markets, but all the people and elements whose dynamics influence developments, movements, and trends.

BusinessWorld

bworldonline.com

Owned by BusinessWorld, this is the Philippines' leading business newspaper that represents nearly five decades of professional economic journalism. It has been a reliable source of information for the country's business community and policymakers.
